- Some injuries from slips and falls on icy surfaces
- Probably some ice on some untreated roads, pavements and cycle paths

Further details

Snow showers over northern Scotland and eastern England will also start to affect parts of western UK during Friday evening and night. Meanwhile, over northern Scotland showers will merge into longer periods of snow and here accumulations of 2-5 cm are possible with 5-10 cm perhaps falling over higher routes. Away from northern Scotland, snow accumulations will be much smaller and patchier in nature, but 2-4 cm are possible in a few places above 100 metres, perhaps most especially the North Yorkshire moors.
